tourism

SIZE

approx. 2.285 sqm

AUTHOR

Ivo Skelin

COLLABORATOR

Andre Castro Vasconcelos

CLIENT

Prima Marina d.o.o.

YEAR

2018

The curved house form follows the curve of the cove, it encompasses and includes the focal point of the space. Wide, horizontal strokes easily evoke heroic examples of modernistic, contemporary, uncompromising spatial interventions that are not weighed down by layers of tradition that is marked by masses, heaviness and introversion. Porches and terraces protect the house from the sun and draw the outside space into the house.
